

## Vitiligo study

Last Updated Monday, 11 December 2006

Online prospective study on anti-vitiligo oil is launched. The study will include patients from different ethnic and racial backgrounds from all over the world. The patients will be provided medicine on 30% reduced prices along with an added cash back of 30% after 6 months making a total of 60% discounts. Patients who are interested in participating the study should contact [asif@trueherbals.com](mailto:asif@trueherbals.com). The study is being conducted by Dr. Asif M Kadri, head of medical team at TrueHerbals.
