

Price reduction for Anti-Vitiligo

Last Updated Monday, 11 December 2006

TrueHerbals has revised the prices of this product with up to 42% reduction. This phenomenal reduction was made possible because of

1. New cost effective procedures in extracting and preparing the medicines.
2. Significant increase in the sale volume of Anti-Vitiligo over the past 6 months.

The prices will be effective from 6th december, 2005.
